

Dr Lucica Ditiu, Executive Director of the Stop TB Partnership, is a Romanian physician, accomplished professional and relentless leader in the global fight against tuberculosis and other communicable diseases, driven by the strong belief that we should "leave no one behind". Over years, she transitioned from being a physician to one of the strongest advocates in the international community on tuberculosis. A strong believer in innovation, flexibility, change, breaking rules and thinking out of the box, Lucica is dedicated to driving political commitment and engagement to accelerate the efforts to End TB.
